

As the first school in the world to offer a bachelor’s degree in video game development, DigiPen has advanced the game industry for more than 30 years by helping students become skilled engineers, artists, and designers. DigiPen offers undergraduate and graduate degrees in subjects relating to Game design, Computer science and engineering, Digital art and animation, and Music and sound design.

DigiPen alumni have proven to be among the most sought-after employees in the industry. In addition to being credited on well over 1,000 popular game titles over the last 20 years, they continue to advance the boundaries of what technology can accomplish.
