

STATE UNIVERSITY OF NEW YORK PLATTSBURGH

Study in New York at the State University of NY (SUNY) at Plattsburgh! Our students enjoy living and learning experiences like those at many private colleges: excellent career development services, low student-faculty ratio, small classes, and instruction by faculty, not graduate students. With many opportunities for undergraduate research and hands-on learning, our graduates are well-prepared for employment or further study. Imagine what you will accomplish!

Other Helpful Information:

Our student to faculty ratio is 16:1 on average. This is priceless! A small student faculty ratio means that students have the opportunity to work closely with faculty and staff, building lasting relationships and getting the individual attention they need to succeed in school and in the workplace. Don't underestimate the value of these relationships!
