We offer one of only a small handful of direct entry pharmacy programs in the country where students can get their doctor of pharmacy degree in only 6 years instead of 8 at most universities. We also offer accelerated degrees in dental hygiene, nursing, medical imaging, physical therapy, acupuncture and oriental medicine, and optometry. Our accelerated degree programs are one of the main reasons students choose MCPHS.

We also offer an academic bridge program for students who need additional ESL support, however unlike "pathway programs" this is a full credit program that focuses on medical and healthcare English skills, not basic English skills that students already have.
