SPU is the only private university in the Pacific Northwest to make *U.S. News & World Report*'s 2019 "Best National Universities" list.

SEATTLE PACIFIC UNIVERSITY

Seattle Pacific University students study in a **leading metropolitan hub** brimming with opportunity, **explore and grow in Christian faith**, and graduate **prepared to succeed and serve the world**.

3,700
graduate and undergraduate students

47
graduate programs

100+
undergraduate programs

13:1
student-faculty ratio

98%
of our alumni say SPU's academic quality met or exceeded their expectations

With Seattle leading in technology, business, industry, the arts, and more, the future is happening here. From this global epicenter, Seattle Pacific University equips students through 47 graduate programs and more than 100 undergraduate programs. Our students grow in skill and have valuable work experience opportunities in the Seattle area at companies like Amazon, Google, Microsoft, Boeing, Nordstrom, Starbucks, and World Vision. They spend their college years minutes from Seattle's vibrant downtown core and enjoy access to outdoor activities, surrounded by the forests, mountains, lakes, and beaches that make up the beautiful Pacific Northwest.

Our students also explore — or go deeper in — Christian faith and engage the world's deepest needs through ministry opportunities, community worship, small groups, and rigorous academics taught through a Christian lens. Inside and outside the classroom, we encourage questions and discussion so you can grow your own educated and resilient faith.

Seattle Pacific is the only private university in the Pacific Northwest nationally ranked by *U.S. News & World Report*. Our engineering program is highly regarded, and SPU's School of Business, Government, and Economics is regularly included in *U.S. News & World Report*'s listing of "Best Business Schools."

At the same time, our small classes are tailored to you and your goals, taught by world-class faculty who are leading scholars and researchers in their fields. With 3,700 students, including international students from 42 countries, you will prepare for your future with professors and classmates who support and challenge you. Ultimately, you will graduate informed, skilled, and resilient — ready and able to change the world.
