

UNIVERSITY OF SOUTH ALABAMA

The University of South Alabama provides our students with an exceptional education in business, the liberal arts, education, engineering, computing, the sciences and health care. Located in Mobile, Alabama on the Gulf Coast, we are strategically located in an international commercial hub, providing unprecedented opportunities for scholars and students to explore their fields. As a high-level research institution, our research efforts span from medical research, to cybersecurity, engineering, and marine sciences. Our beautiful campus, equipped with state-of-the-art facilities, is home to over 14,000 students from over 50 countries and is committed to fostering global perspectives on our campus.

Other Helpful Information:

The University of South Alabama is fortunate to be strategically located in an international commercial hub, providing unprecedented opportunities for scholars and students to explore the frontiers of their fields. Given the University's coastal location, its many innovations in marine science, coastal weather forecasting and research, coastal resilience and environmental fields are not surprising. South Alabama researchers are also creating new nanomaterials, attracting the interest of Mobile's burgeoning aerospace industry.

At the University of South Alabama, undergraduate and graduate students have opportunities to work with faculty researchers in a wide range of areas, from medical research, to engineering, to sociology to music. As the region's premier healthcare provider, South Alabama continually generates medical research aimed at improving the quality of life. At the same time, South Alabama's cybersecurity experts are working hard to stay ahead of the hackers, and the South Alabama Technology & Research Park is home to a technology incubator for new tech businesses.
