

EMBRY-RIDDLE

Aeronautical University

Embry-Riddle Aeronautical University is the world's leader in aviation and aerospace education and offers more than 100 degree programs to students who want to fulfill their dreams and aspirations for creating a better world. Home to a diverse student population from 125 nations, Embry-Riddle combines impressive faculty with state-of-the-art buildings, laboratories, classrooms, and online programs for a rich learning experience. Embry-Riddle began in 1925, just 22 years after the world's first successful airplane flight— Embry-Riddle was founded to teach flight to the daring and adventurous. Since then, the university has excelled in aviation and aerospace education.

Popular programs include Aerospace Engineering, Aeronautical Science (pilot), Global Security and Intelligence Studies, Aviation Business Administration, and Space Physics. Embry-Riddle's College of Security and Intelligence represents the first comprehensive degree-granting college of its kind in the U.S. Embry-Riddle's residential campuses in Arizona and Florida, provide education in a traditional classroom setting to undergraduate and graduate students engaged in high-level, project-based academic pursuits. Our small class sizes promote collaboration among faculty and students who are highly focused and work hard to achieve their academic and career goals.

Embry-Riddle also offers an Asia campus in Singapore. Embry-Riddle Asia offers more than 30 undergraduate and graduate degree programs in the colleges of Aeronautics, Arts & Sciences, and Business. Our growing presence in Asia continues our university's long-standing history of providing focused educational programs and a dynamic, hands-on learning experience. In addition to expanding their industry knowledge, students will cultivate their management abilities, learn practical workplace strategies, and develop the professional skills they need to thrive in a global community.
