

Since 1946, New England College (NEC) has provided a creative and supportive learning community that challenges individuals to transform themselves and their world. Today, NEC emphasizes experiential learning as an essential component in the development of an enduring academic community. Building upon a strong liberal arts foundation, NEC challenges its students to reach their full potential through informed discourse and the pursuit of excellence in a framework of academic freedom that reflects our values of innovation, respect, collaboration, truth, social justice, citizenship, sustainability, and continuous learning. NEC confers associate, baccalaureate, master's, and doctoral degrees.

NEC offers two thriving campuses. The Henniker campus offers a quaint village setting that includes 23 academic, residential, and athletic facilities spread across 220 beautiful acres. The Manchester campus, about 30 minutes away, is located in New Hampshire's largest city. Students can walk to many restaurants and cafes, shops, and entertainment venues.
