

# SCAD

The University for Creative Careers

SCAD - Savannah College of Art and Design is the most comprehensive art and design university in the world, offering more than 100 degree programs (with 40 majors and over 75 minors) and more specializations than any other art and design university. 18 out of the 40 majors are STEM designated. In addition to impressive academics, the diverse student body at SCAD is motivated by a faculty of professors with extraordinary academic credentials and valuable professional experience; professors who are often still actively involved in the field they specialize in. SCAD's innovative and ever growing curriculum is enhanced by advanced-professional technology, equipment and learning resources. SCAD is one university — offering degrees in Atlanta and Savannah, Georgia, and online via eLearning, with additional study abroad opportunities in Lacoste, France. Each SCAD location provides a new experience, and students can choose to study in any location, at any quarter during their education. Visit [www.scad.edu](http://www.scad.edu) today!
